RE: 09/898,686

Dear Mr. Lastra:

I am replying to the 9/13 Office communication where my response was not fully responsive to the Office Action. The May 25<sup>th</sup> telephonic call lead me to amend the claims based on direction from Jim Myhre, which I have done with the RCE.

I am available on my cellular phone at 925-250-9450 for any conference calls.

There remains a search for patent counsel but as of this reply, I have not found adequate counsel.

This letter explains the references from the February 25, 2005 Amended Claims 11 – 14 which amended 1-10. The claims have been underlined for added text and deleted matter has a strike-through. If there are any questions on the similar matter, I will be available for a conference call at your convenience.

I hope James Myhre continues to be the Primary Examiner and with your work, we can have significant progress with the application.

I look forward to our next communication.

Sincerely,

Bill Kish
